

Linda Sparks Biography

I started my journalism career writing articles for the *Aylmer Bulletin* and the *West Quebec Post* including my own weekly column entitled the *Faces of West Quebec* which won second place in the reader's poll as the most read column.

I have written many articles for the Internet before taking script writing and production courses. I have written several full length feature films and stage plays. I have also completed a middle grade manuscript of 50,000 words that could also be a graphic novel as I have done a comic script workshop.

I have worked in the film industry as a location scout. One of my more memorable experiences was working on the *Rolling Stones* video shoot for the song *Streets of Love*. I was a production coordinator for a movie of the week entitled *Crossing Nirvana* that was televised on cable television. I have a IMDB credit for the film.

I was a content writer and one of the producers for a bilingual podcasts series entitled *Our Ancestors and How They Shaped the Land*. It was done in collaboration with the Regional Association of West Quebecers and CHIP-FM 101.9 radio station.
